World Population Day Assembly by XA - Report

A special assembly was conducted on 21/7/2026 to observe World Population Day. The programme highlighted the effects, challenges, and advantages of population growth. Students were sensitised to issues such as population pressure on resources, environmental concerns, and the need for sustainable development. The importance of responsible population management and collective efforts for a better future was also emphasised. The assembly concluded with a message on creating awareness and promoting sustainable living.

TOGETHER
FOR A STRONGER TOMORROW
By working together, we can ensure that population becomes a strength rather than a burden.

Advantages of
A Large Population
01
Larger Workforce
02
Economic Development
TAX
03
Increased Tax Revenue
04
Greater Innovation

Challenges of Large Population
Demand for food and water
Increase in housing, education, Healthcare and jobs required
Overcrowding and pressure on natural resources
Pollution
